Alliance Members Mourn Loss of Chairman Brian J. Moline
Statement from Sunflower Electric Power Corporation President & CEO Earl Watkins

HAYS, Kan.—“We are deeply saddened by the loss of our friend Brian Moline. Brian dedicated his career to serving the public interests of our state. A gifted and judicious man, he will be remembered for his many accomplishments. As a former Member of the Kansas House of Representatives, past Chairman of the Kansas Corporation Commission, co-founder of the statewide law firm Kansas Legal Services, and active member of other state and national boards, Brian proved himself a steadfast servant to his fellow Kansans. On behalf of the Alliance for Sound Energy Policy, our prayers are with his wife Kathie and Brian’s children and grandchildren.”

The Alliance for Sound Energy Policy is a statewide, non-partisan organization committed to balancing our growing energy needs with environmental stewardship while encouraging the development of a comprehensive energy strategy that provides an affordable, reliable, and diverse energy portfolio for Kansas' future.

We can be found online at: www.soundenergypolicy.net.
